* All OSPs provide a limited number of ongoing alterations from ourselves during a package year. This is split into 'Basic' and 'Extended' changes and the alterations included depends on which package you choose. Regardless of which package you choose, this is only intended for small alterations and we reserve the right to charge an additional fee for more substantial changes or when a customer has used the feature beyond what we deem within the OSP.

See the following page for details of what is included in the Basic and Extended tiers.

Basic

- Text colour changes
- Font changes
- Typos/text corrections
- Layout tweaks

Extended

- All from basic
- Simple text alterations/additions
- Simple image alterations/additions
